Accessing UWS Library Databases from Off-Campus

At the top of the UWS home page, select **Library**. On the library home page, select **Databases**.

Choose the database you would like to search. Scroll down to see all of your options, or use the link up top to see descriptions of each database.
From off-campus, when you click on a database, this login screen will appear. Enter your campus network username (the first part of your UWS email address WITHOUT the @uws.edu or @students.uws.edu) and your password.

Once you are logged in, the database will open. You can now run a search and access UWS full-text links just as you would from on-campus.

Questions?
Contact reference@uws.edu or 503-206-3202 (reference) or 503-251-5752 (library main).
